## 1 Introduction

Welcome to your new My Test Project document project!

This is a sample introduction section. You can edit this file and add more numbered markdown files to build your document.

### 1.1 Getting Started

1. Edit the metadata in 00—setup.md
2. Add your content in numbered markdown files (01-intro.md, 02-chapter.md, etc.)
3. Run autodoc build pdf to generate your document

### 1.2 Features

- **Professional PDF output** with LaTeX typesetting
- **Multiple formats:** PDF, DOCX, HTML (coming soon)
- **Mermaid diagrams** with native Rust rendering (coming soon)
- **Bibliography support** with pandoc-citeproc
- **Template system** with Eisvogel and custom templates

Happy writing!
